

```
19      protected class Node {  
20          public T value;  
21          public volatile Node next;  
22          public Node(T x) {  
23              value = x;  
24              next = null;  
25          }  
26      }
```

**FIGURE 10.3** The BoundedQueue class: list node.
