

```
1    public synchronized int antiTraverse() {  
2        try {  
3            if (toggle) {  
4                return 1;  
5            } else {  
6                return 0;  
7            }  
8        } finally {  
9            toggle = !toggle;  
10        }  
11    }
```
