

```
1  private Barrier b;  
2  
3      ...  
4  
5      while (true) {  
6          frame[my].prepare();  
7          b.await();  
8          frame[my].display();  
9      }
```

FIGURE 18.2 Using a barrier to synchronize concurrent displays.
